Enforcers Ticket Assistant (ETA) Previously Newtin ETA

Newtin ETA is a web app that can be used on any GPS enabled smart devices such as the iPad, iPhone, or Android devices that have an internet connection.

Newtin ETA displays all the active DigAlert tickets within a 1000 feet of your current location. Whether you are questioning why there are marks in a particular area or questioning whether a contractor has a valid ticket, Newtin ETA can lead you to the answer.

Requirements

- Be a member (in good standing)
- Have a GPS enabled smart device with a wireless data plan
- Become a registered DigAlert Direct user
- Be sure to register as a Member with your member code to gain access to ETA
